

Dallas is at the geographic center of North America and connected to the continent and the world by highway, rail and air. Over 35% of the US population (by truck) and 98% of the US population (by rail) can be reached within 48 hours from Dallas.

DFW Airport provides non-stop access to 135 U.S. and 38 international cities. In 2008 DFW Airport served 57 million passengers and 720,000 tons of cargo, making it the world's third busiest airport.

Dallas Love Field has three runways, flies 121 daily nonstop flights serving 7.7 million passengers annually, and is the home to the corporate headquarters of Southwest Airlines.

Dallas is a major interstate hub, with five interstate highways (I-20, I-30, I-35, I-635, and I-45) within the city limits, two major loop roads and 19 federal and state highways.

Three major rail lines pass through Dallas: Burlington Northern Santa Fe (BNSF), Kansas City Southern and Union Pacific. Four intermodal facilities operate in the region.

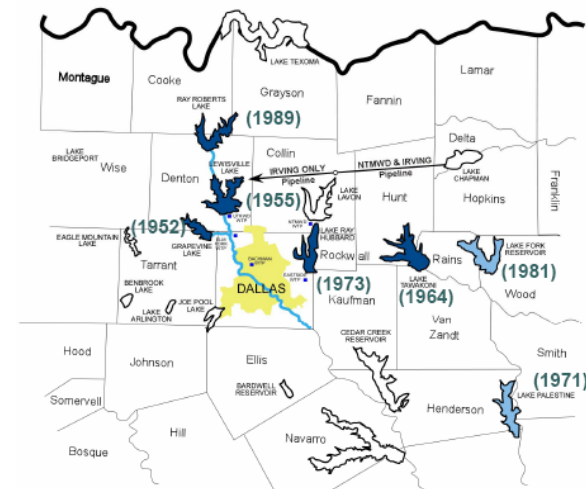

There are 31 Dallas Area Rapid Transit (DART) light rail stations in the city with an additional 12 scheduled to open by 2011 and 6 from 2016 to 2018.

Dallas Water Utilities provides over 400 million gallons of water daily and maintains a water supply plan to accommodate the next 50 years of growth for the city.
